

Identify the following for each disease. Please use the appropriate letter for a quick analysis of all reports. We shall base our decision to follow the different recommendations upon the accuracy of the initial observations. Although not infallible, we will not follow through with the recommendations of those observations deemed inaccurate based upon the likelihood of false conclusions resulting from such. Good luck and godspeed.

I. Name of Disease:

II. Methods of Contraction:

III. Vaccine:

IV. Cure:

V. Symptoms:

- a.
- b.
- c.

VI. Treatment:

VII. Fatality Rate:

VIII. Long Term Health Issues:

Recommendations:
